BUILT WITH INTEGRITY

Welcome to Integrity Dental Services, our company was founded in 2019 with the idea that like minds tend to work very well together. As a company, we believe that the restorations we provide to patients are of the utmost quality. Our restorations and solutions are made with the latest and most advanced technology, providing modern, top-notch solutions is our focus.

WHAT WE DO

Our employees are our life-blood. We challenge and push them, but we also provide them with the latest technology, tools, and education. This is how we continue to produce amazing, quality solutions for our customers and their patients. Our employees have been featured in publications and recognized for their talents.

With numerous CDT's and multiple MDT's on our Integrity team, we can deliver premium quality, highly consistent dental restorations. We have a vast well of diverse talent that works with our customers daily to produce everything from simple single-unit crowns to very complex full mouth treatment plans. We are here to advise you and your team at every step. However, our talent pool is not limited only to our people. We also have some of the most advanced milling machines, scanners, and 3D printers available in today's dental market. This combination of talented personnel and cutting edge technology allows Integrity Dental to deliver success daily.

A dental laboratory where communication is the cornerstone of our business.

Integrity Dental Services is a full-service dental laboratory built on one core principle: meaningful communication.

We take pride in producing restorations of the highest quality—crafted in the USA using premium materials and cutting-edge technology. Our team is made up of passionate professionals who love what they do and are committed to excellence in both product and partnership.

At IDS, quality is more than a product—it's a philosophy. We listen first, respond fast, and

treat every customer like a collaborator, not a case number. You won't get an automated phone tree when you call us—you'll get a person who's ready to help.

Since opening our doors in 2019 with just 3 employees, we've grown to over 250 team members, serving providers in 48+ states from our locations across the U.S.

Dynamic, experienced, and solutions-driven—IDS is the lab that gets it. And it all starts with communication.

Lab Terms & Turnaround

- Shipping Cost are covers both ways from Integrity Dental Services *special rates apply for next day air shipping
- Integrity Dental Services can provide a rush on any type of laboratory restoration; please call to schedule a rush case. Fee varies depending on how fast the case is needed. Rush cases are also limited based on availability.
- Please allow 10 in lab days for all cases

unless turnaround time is specifically labeled different on pricing list.

- Please provide reason for remake and old crown on all cases sent back for remake to Integrity Dental Services
- Please note that prices and delivery times are subject to change.
- Please allow 5 extra business days for all combo cases.

HOW TO SEND CASES

We've made it simple to send cases to Integrity Dental Services while protecting patient information and keeping workflows consistent. Please use one of the approved methods below.

1

Ship Physical Cases to Our Duluth HQ

Mailing Address (All Carriers):

Integrity Dental Services
2810 Premiere Parkway, Suite 350
Duluth, Georgia 30097

Accepted carriers:

FedEx®

DHL

Include in Your Package:

- Completed lab Rx
- All models, impressions, and components related to your case
- Any printed photos or notes you'd like our team to review. If you have digital assets to include with your case, please submit content here:

<https://integritydentalservice.com/upload-completed-prescription/>

2

Send Digital Cases via Your Scanner

We accept digital impressions from most major intraoral scanners, including:

MEDIT

3shape▶

**Dentsply
Sirona**

iTero™

 **SHINING 3D**

And other leading digital platforms. When sending digital cases:

- Select Integrity Dental Services as your preferred lab (if available in your platform),

- or follow your scanner's instructions for sending to an external lab and route files to Integrity Dental Services
- Attach your completed digital Rx through the platform when available

If your team needs help setting this up, please contact your Integrity representative or our support team.

3

Submit Cases Through Our Website

You can also submit cases and Rx forms directly through our website:

Online Case Submission & Universal Rx: <https://integritydentalservice.com/send-a-case/universal-rx/>

Use this option to:

- Access and complete our Universal Rx
- Upload case details
- Streamline communication with our team

SCAN TO SUBMIT
YOUR CASE

!

IMPORTANT

To protect patients and ensure proper tracking:

We **DO NOT** accept cases or Rx forms sent via email.

- Please do not email Rx forms or case submissions to Integrity Dental Services.

We **DO** accept photos via email to support your case:

- Email clinical photos, shade photos, and reference images to:
photos@integritydentalservice.com

Please avoid including unnecessary patient identifiers in photo file names or email subject lines.

?

Questions or Need Help?

If you're unsure which workflow is best for your practice or need help setting up digital case submission, our team is happy to assist.

AVENTUS FULL ARCH

Every Aventus restoration is 100% made in the USA — engineered for long-term durability, exceptional esthetics, and precise fit. Three distinct tiers, one standard of excellence.

STANDARD

ENHANCED

Full Arch Zirconia - Layered Gingiva

Stain & glaze finish. High-strength zirconia with natural translucency and hand-finished esthetics for reliable, lasting results.

- ✓ All Standard features
- ✓ Custom-layered gingival tissue
- ✓ Lifelike gingival esthetics
- ✓ Enhanced tissue characterization

PREMIUM

Elite Full Arch Zirconia

Stain & glaze finish. High-strength zirconia with natural translucency and hand-finished esthetics for reliable, lasting results.

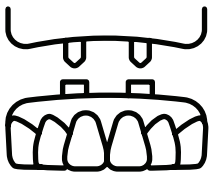

- ✓ All Enhanced features
- ✓ Hand-layered gingiva
- ✓ Layered zirconia teeth
- ✓ Maximum esthetic customization
- ✓ Highest realism available

IMPLANT SERVICES

All-On-X

Integrity Dental Services delivers complete full-arch implant solutions backed by over 100,000 arches manufactured, industry-leading digital workflows, and CDT/MDT-certified technicians. Our proprietary restorations—like the Aventus® Zirconia and TiBrid® Hybrids—combine strength, precision, and esthetics, all made in the U.S. with premium materials. With lifetime warranty options, we ensures predictable outcomes and lasting patient satisfaction.

Delivery & final seating

IPS e.max® crown

IPS e.max® lithium disilicate with 400 MPa flexural strength and exceptional lifelike translucency. Now delivered in just 3 business days via our Redon milling machine — reducing chair time and improving patient satisfaction across anterior and posterior cases.

FEATURES

⚡ 3-day turnaround — Redon milling

⚡ 400 MPa flexural strength

⚡ Veneers, inlays, onlays & crowns

⚡ Bridges up to three units

Full contour 3D multi-layered zirconia

Multi-layered Zubler USA zirconia with natural cervical-to-incisal gradients. Balanced translucency and opacity for lifelike results in any case position.

FEATURES

- ✦ Natural shade transition gradient
- ✦ Multi-unit bridge capability
- ✦ Optimal translucency & opacity
- ✦ Anterior & posterior applications

Full contour zirconia crown

High-strength zirconia designed for durability, translucency, and long-term performance. Ideal for single units, bridges, and high-load implant cases including bruxism patients.

FEATURES

- ✦ Premium Zubler USA zirconia
- ✦ Fracture resistant for high-load cases
- ✦ Single units, bridges & implants
- ✦ CAD/CAM precision milled

Layered zirconia crown

Zubler USA zirconia core with expert hand-layered porcelain for superior translucency, natural shade matching, and lifelike surface texture. Each crown undergoes a rigorous multi-step quality control process for consistent excellence in form, function, and longevity.

FEATURES

- ✦ Hand-layered porcelain by skilled technicians
- ✦ Customizable anatomy & characterization
- ✦ Superior translucency & light diffusion
- ✦ Multi-step quality control process

REMOVABLE
